

Snagajob Privacy Policy

Last Updated: October 2020

The Privacy Policy describes the data protection practices of Snagajob.com, Inc. and its affiliated companies (together referred to as “Snagajob” “we,” “us,” or “our”). This Privacy Policy applies to all websites and mobile applications owned and operated by us that link to this Privacy Policy, and related online and offline services (collectively, the “Services”).

Snagajob is a provider of cloud-based software services that help connect businesses (“Employers”) looking to hire for employment positions with our network of job and shift seekers (“Seekers”). When applicable we have made distinctions in these sections between Seekers and Employers to be transparent about the different situations in which we may collect, use, or share personal information.

When we handle information about Seekers who use our Services to fill out job applications or onboarding documents/forms for specific Employers or otherwise communicate directly with Employers (“Employer Direct Engagement”), we do so on behalf of the Employers as a service provider or processor. Employers determine how to engage with Seekers through our Services and thus act as the business that determines the purposes and means of handling Seeker data in relation to Employer Direct Engagements. In those circumstances, Seekers are ultimately subject to the privacy policies of the Employers with which they interact, and they should read those policies carefully. Snagajob is not responsible for the privacy practices of Employers. Snagajob acts as the business and not a service provider when Seekers build profiles and use related services.

PLEASE READ THIS PRIVACY POLICY CAREFULLY TO UNDERSTAND HOW WE HANDLE YOUR INFORMATION. By using Snagajob Services, you are expressly and voluntarily accepting the terms and conditions of this Privacy Policy and our [Terms of Use](#) that allow us to process information about you.

Cookies may also be used to enhance your experience on the Services (for example, by storing your username) and/or to collect general usage and aggregated statistical information. - “pixel tag” (also known as a “clear GIF” or “web beacon”) is a tiny image – typically just one-pixel – that can be placed on a web page or in our electronic communications to you in order to help us measure the effectiveness of our content by, for example, counting the number of individuals who visit us online or verifying whether you’ve opened one of our emails or seen one of our web pages.
- **Do Not Track.** Do Not Track (“DNT”) is a privacy preference that users can set in certain web browsers. We are committed to providing you with meaningful choices about the information collected on our website for online advertising and analytics purposes, and that is why we provide the variety of opt-out mechanisms listed above.
